

Gyoza is tasty and hot from the pan!

Gyoza grilled by high thermal efficient IH and small lot cooking of two portions will not make your customers wait for long!

Quick!

■Gyoza is offered quickly to customer both at peak time and when ordered two portions. You do not need to keep your customer waiting.

Pan is ready to grill quickly because heat source is high thermal efficient IH. You can reduce cooking time. Moreover, it can deal with small lot of two portions. You do not need to keep your customer waiting.

Tasty!

■Magnetic shunt steel pan always offers stable deliciousness.

Magnetic shunt steel used for pan prevents temperature increase above a certain level even in continuous use. Thus, it always grills at a constant temperature. You can get the same finishes all the time with only managing of heating time.

Moreover temperature is even on the bottom of the pan, which grills evenly and beautifully. Temperature will not increase above a certain level, so you do not need to worry even when you forget to turn off power.

Convenient!

■Easy and convenient menu function.

You can register four types of cooking time on four menu switches to be selected according to the variety and the size of gyoza. Even non-regular worker can cook easily and it can save labor in the kitchen. Moreover you can develop menu variations such as jumbo-size gyoza or sticky thick sheet gyoza added to your standard gyoza. In addition, it has continuous heating mode without use of menu function.

■Pan guide prevents water from boiling over the pan, which keeps machine clean.

Pan guide catches water boiled over the pan during cooking, which keeps machine and surrounding area clean.

■Easy-to-clean every day.

Pan, pan guide, and lid are easily removable and washable. Easy-to-clean and keep hygiene. Moreover you can easily wipe dirtiness on machine itself because machine is fully flat.

When pan, pan guide, and lid are removed.

■Cut running cost with IH which has an established reputation for energy saving.

IH has high thermal efficiency without waste, because pan itself produces heat. It is ready to grill quickly, which cuts cooking time and running cost. Moreover low radiating heat reduces burden on worker and reduces air-conditioning cost.
